

TOWN OF LANGFORD

ORDINANCE 50.17

AN ORDINANCE ALL NEW CONSRUCTION OR REMODEL OF WATER AND/OR SEWER MAIN NEEDS TO BE NEW FROM THE MAIN.

BE IT ORDAINED BY THE TOWN OF LANGFORD, of Langford, South Dakota, that the following Ordinance is added to Chapter 50: Utility Services General Provisions of the Ordinances of the Town of Langford, defined as Tile V: Public Works, Chapter 50, Section 50.17.

- (A) The Town of Langford requires that all new construction or remodel of the water and/or sewer service on any lot with utilities provided by the Town of Langford must be new from the main line. Exceptions can be made but must be submitted in writing and approved by the Board of Trustees.
- (B) The Town of Langford will provide the pipe saddle and curb stop for the new water service. Water service must be sized to ¾" or larger and be made of copper or other approved material. Any service found constructed of or with lead, galvanized, or other unapproved material must be turned off at the curb stop and capped or replaced immediately. No exceptions.
- (C) Sewer service must be made of PVC pipe or other approved material. Any sewer service constructed of a perforated pipe, other unapproved material, or prior approved pipe but found to be in disrepair must be replaced immediately. No exceptions.

Penalty, see 50.99
